

Dear Valued Partner

American Global Sales Update

Starting on June 13, 2020, the new Arrivals and Departures Hall at Terminal B will serve as American Airlines main arrival & departure facility at LaGuardia Airport, including ticketing and check-in, security and baggage claim.

The Arrivals and Departures Hall will provide a more modern, enjoyable travel experience for our customers and this new, state-of-the-art and modern facility offers a light, bright and central location for all arrivals, departures, shopping, dining and services.

There will be extensive signage to help customers and our team members navigate this new space:

- The Terminal B Arrivals and Departures Hall connects directly to the new Eastern Concourse housing gates 40-59. We have begun operating select flights from the Eastern Concourse when it opened in December 2018.
- Many of our flights will continue to operate from B, C and D gates in the original Central Terminal Building (CTB). After checking in to the new Arrivals and Departures Hall, customers can reach B, C or D gates via a temporary walkway.

The Arrivals and Departures Hall is the second phase of a larger program to redevelop LaGuardia, launched by New York Governor Andrew M. Cuomo. Gov. Cuomo's vision involves transforming LaGuardia into a modern and unified airport with better transportation access, more taxiways and best-in-class amenities to create a better and more seamless travel experience.

We are proud of our partnership with Port Authority, LGA, and other airport stakeholders to create a new airport for New York make Governor Cuomo's vision a reality.

We look forward to seeing you and your travelers on an American Airlines flight soon.

Sincerely,

Andreea Croitoru
