

Safety first, as always!

For the safety of all our guests and crew, we are committed to apply high standards of hygiene measures regularly.

Hygiene Expert cabin crews will be appointed in our flights, in charge of lavatory disinfection and enforcement of all on-board hygiene and social distancing measures.

Your health is secure with the latest technology measures! HEPA (High-Efficiency Particulate Air) filters in our aircraft uses a special filtration system that can remove 99.97% of all particles whose diameter is up to 0.3 microns in the air.

You will be provided with a "Hygiene Kit" consisting of a mask, an antiseptic tissue and a hand sanitizer. (The kits in short-haul flights include a mask and a antiseptic tissue while the kits in long-haul flights also include a hand sanitizer.)
