Flights suspended until 21 April 2020

Dear Trade Partner,

The current suspension of all Etihad Airways scheduled passenger services to and from the UAE has been extended until 21 April 2020. The decision has been made as part of continuing efforts to contain the COVID-19 pandemic, and remains subject to further review.

We will, however, continue to operate a number of daily outbound flights to help foreign citizens in the UAE return home.

Repatriation flights will start with Seoul Incheon, followed by destinations such as Melbourne, Singapore, Manila, Bangkok, Jakarta and Amsterdam. These destinations are subject to government approvals.

Flights currently available to book:

- 5 April 2020 - Seoul
- 7 April 2020 - Singapore
- 8 April 2020 - Manila
- 9 April 2020 - Bangkok
- 9 April 2020 - Jakarta

Our repatriation flights have been approved by the UAE Government, and we're working closely with authorities to continue these types of operations. Our aim is to increase the number of flights, subject to approval from other foreign governments.

When approved, these flights can be booked through the GDS.

We continue to follow UAE and international government and regulatory authority directives and are applying a contingency plan to assist affected customers. We will announce the resumption of services through our usual channels once restrictions are lifted.

For up-to-date information, including our rebooking options, please visit etihadhub.com.
